

Scott M. Reithel, Ph.D.

Vice President, Solution Delivery

Dr. Scott M. Reithel is a vice president of solution delivery at APTMetrics and is a member of the executive leadership team. He leads a team of consulting professionals to deliver client solutions across all APTMetrics practice areas, including employee assessment and selection, job analysis, statistical analysis, competency modeling, pay equity, executive assessment, and litigation support for Fortune® 100 clients across a broad range of industries.

Prior to joining APTMetrics, Scott provided consulting services in the areas of employee climate surveys, compensation analysis, and job analysis for Anheuser-Busch Companies and Computer Sciences Corporation (CSC).

Scott earned his doctoral degree in industrial-organizational (I-O) psychology from Wayne State University (WSU), where he also held positions in teaching and research. Scott also taught undergraduate courses in I-O psychology and perception of psychology and conducted research in the departments of psychology and business. Scott has also served as an adjunct faculty member at Washington University (WU) in St. Louis, teaching courses in I-O psychology and organizational behavior.

Scott has presented his research at the annual conference for the Society for Industrial and Organizational Psychology (SIOP) and has authored articles for a variety of professional publications, such as the International Journal of Cross Cultural Management (IJCCM) and Chief Learning Officer (CLO). Scott has also presented at the American Bar Association (ABA) Labor and Employment Law conference. Scott is a member of SIOP and the American Psychological Association (APA). Scott is also a member and a past president of the Gateway I-O Psychologists (GIOP) in St. Louis, MO, and he previously served as secretary of the organization.
